STEP 5

Outgoing server setting:

Enter outgoing SMTP server name.
Enter user name & password.

Then, move to next step.

A screenshot of a mobile application's 'Outgoing server settings' screen. The screen has a light gray background. At the top, there is a back arrow and the title 'Outgoing server settings'. Below the title, there are several input fields and options. The 'SMTP server' field contains 'mail.yellowsing.com.sg'. The 'Security type' is set to 'None'. The 'Port' is '25'. There is a checked checkbox for 'Require sign-in'. The 'User name' field contains 'info@yellowsing.com.sg'. The 'Password' field is masked with dots. There is an unchecked checkbox for 'Show password'. At the bottom right, there is a 'NEXT >' button. Several yellow rounded rectangles are overlaid on the screen, highlighting the SMTP server field, the User name field, and the NEXT button.
